Source Code

```
/* Save this as hello.c */
#include <stdio.h>
int main(void) {
   puts("Linux Systems Programming build succeeded.");
   return 0;
}

/* Save the following separately as Makefile (use a TAB before gcc):
CC = gcc
CFLAGS = -Wall -Wextra -std=c11
all: hello
hello: hello.c
	$(CC) $(CFLAGS) hello.c -o hello
clean:
	rm -f hello
.PHONY: all clean
*/
```

Output :

.
